## How to Add the CHEM Second Major to Your BS BIOL Major

- You're already taking the courses in purple for your BS BIOL major. Yay!
- You just need to add the courses in gold to your degree plan. The fastest possible timeframe for getting these done is 2 semesters, minimum. The courses are offered fall and spring semesters. Summer offerings may be available, but are not guaranteed.
- You will get only one diploma, but two majors.
- No foreign language (but learning another language is always muy buena).
- Email CHEMISTRY@ecu.edu to declare the CHEM major and get a CHEM faculty advisor (in addition to your BIOL advisor).
- Check out leadership opportunities in CHEM 2301 and 3301, job training in CHEM 4522, and research opportunities in CHEM 4515, 4516, or 4517!

Quantitative and Instrumental Analysis $(3,2)$
CHEM 2250,2251

Elementary Inorganic Chemistry (3,1)
CHEM 3450,3451
