

**Thomas Harriot College of Arts and Sciences**  
**B.S. in Criminal Justice (Forensic Science Minor) / B.A. in Chemistry Double Major**

**Please note that this is a recommended sequence.**

This is an appropriate double major for students considering a career in a forensic lab (State, Federal, or Private) or an advanced degree in related forensic sciences field. The double major plan provides students with a strong foundation in both criminal justice and chemistry with additional topics from biology and anthropology designed to supplement the skills required in a forensic laboratory setting. Note the BA in Chemistry normally requires 4 semesters of foreign language, but this requirement is waived for students earning a BS in another field and a second major in Chemistry.
