

Thomas Harriot College of Arts and Sciences
B.S. in Biochemistry, Concentration in Chemistry

Catalog: 2018-2019

This 4-year plan is designed for students who place into Calculus I (MATH 2171).

The BS degree in biochemistry offers a rich combination of chemistry and biology studies at the undergraduate level. The Concentration in Chemistry for the BS degree is rooted in structural biochemistry and emphasizes the dynamics of biochemically important systems. This chemistry-focused degree can prepare students for work in the pharmaceutical and drug discovery industry, and serve as a foundation for graduate study in chemistry, biochemistry, biotechnology, pharmacology, and more. It is also an exceptional choice for pre-medical, pre-dental, and other pre-professional students.
